

The most comprehensive, simple to use, validated system to automate all your calculations, electronic batch records, labeling, bar coding, production scheduling, inventory, Quality Assurance documents, equipment, raw material specifications, and manufacturing resource planning for GxP and ISO regulated life sciences companies.

FORMULATIONS PRO 12

Application Highlights

Workgroup

Enterprise

Full validation and documentation support	Yes	Yes
Individual user account names and passwords 1	Unlimited users	Unlimited users
128-Bit SSL encrypted data	Yes	Yes
Master Raw Materials module	Yes	Yes
Master Documents module	Yes	Yes
Production Scheduling module	Yes	Yes
Inventory module	Yes	Yes
Production Documents module	Yes	Yes
Quality Control module	Yes	Yes
Quality Assurance Documents module	Yes	Yes
Deviations module	Yes	Yes
Equipment module	Yes	Yes
Bar coding and label printing 2	Yes	Yes
Decision Support System (Demand, EOQ, SPC, Forecasting)	Yes	Yes
Electronic batch record types	Liquid solution, dry chemical, kits, components, built-in unit conversion calculations for the Bill of Materials. Automatic deviation monitoring.	
Document and file storage types	Any binary format; Word, PDF, Excel, jpg, gif, png, etc.	
MRP/MRP II	Expiration Dating, FIFO, Cost Accounting	
Electronic signatures	21 CFR 11 compliant signatures	
Log File	Record creation, modification, deletion, data roll back	
Reports	Built in and customizable reports, export data to any file type	
Charting	Statistical Process Control, Demand, and Forecasting	
System integration 3	Oracle 10g & 11g, Microsoft SQL Server 2005 & 2008, MySQL 5.1	
Software capacity	8 TB, 64,000,000,000,000,000 records (theoretical maximum)	
Client compatibility	Windows XP, Vista, 7, 8, OS X 10.6, 10.7, 10.8	
Mac CPU/OS Minimum Requirement	Intel-based Mac, 1 GB RAM, OS X (10.6) or later.	
PC CPU/OS Minimum Requirement	Intel 1GHz, 1 GB RAM, Windows XP, Vista, 7, 8 or later	
Server Hardware 4	2X 6-Core 2.4 GHz Intel Xenon processor, 12 GB RAM, RAID 5 3X1TB SATA. OS X Server or Windows Server.	
Server software functions	Web-based Admin console, email notifications, security logging, scheduled backups, file health monitoring, connect to external SQL sources, host 125 files, 250 concurrent user connections, plus more!	
Networking	TCP/IP, LAN, WAN, Citrix (optional)	
Monitor	1024X768 or higher resolution video card and display.	
Basic installation and training 5†	Included	
Server Advanced	2000 (optional)	
Customization Fee (No Master Service Agreement) †	\$265/Hr.	
Master Service Agreement Level 1, 160 Hours Min. 6†	\$200/Hr.	
Master Service Agreement Level 2, 320 Hours Min. 6†	\$165/Hr.	
Client licensing	10 users minimum.	
Additional client licensing (one-time cost per user)	\$300 ea. (discounts available for volume licensing)	
Annual Maintenance 7†	\$5995 required.	
Help Desk 7†	\$500/10 Pack required.	
Initial purchase price	\$39,995	\$139,995
Annual License Fee	\$39,995	N/A

1. Unlimited user accounts can be created. FileMaker Server is limited to 250 concurrent connections. FileMaker Server Advanced can host unlimited users.

2. Bar codes and labels require additional scanner hardware and printers.

3. Oracle and SQL integration requires upgraded Server Advanced option. Additional drivers may be required.

4. OS X Server includes unlimited client operating system. You may opt for Windows based server of similar specifications. Windows 2008 Server required.

5. Basic installation includes 1 day for the server and clients. Training includes 4-4 hours sessions. Additional training can be acquired for additional cost.

6. Master Service Agreement is a pay-as-you use service over a 1 year period. MSA includes Annual Maintenance and Help Desk. Any unused hours will be billed at the end of the service period.

7. Annual maintenance is performed 1 time per year and includes database, client, and server software updates (not upgrades) where appropriate. Help desk includes 10 calls. Additional Help Desk calls may be acquired for an additional cost.

† Costs will be billed at the time of service.
